

## Activity Sheets

### Cheetah Facepainting

#### Supplies:

- Facepaints (yellow/orange, white, black)
- Smaller paint brushes
- Make-up sponge
- Damp cloth
- Plastic dish of water
- Mirror

#### How to:

1. White facepaint: Use your make-up sponge and dip in water to dampen. Start with white face paint and place what above eyebrows, upper lip and below bottom lip to chin.
2. Yellow/orange facepaint: Rinse make-up sponge and use yellow/orange face paint to fill in all areas not yet covered with white paint.
3. Black facepaint: Use small paintbrush for applying the black details. Dip brush in water to dampen and then in face paint. Use black to outline eye holes, black tip of nose, draw tears on either side of nose, make whisker dots on upper lip and add fur dashes along sides of eyes and nose. Then the REALLY fun part – add spots! As many as you like and ta-dah you're a cheetah!

**Have fun being a cheetah & remember to share what you've learned about cheetahs with family and friends!**
